

## Hey! Are you looking for new experiences? Here we are :)

We are growing, and we are looking for our new team member for the [Innovation ninja](#) role! So, if you are interested in how innovation processes work and you love an innovative environment - Huge Thing is a good place for you :) Check the details below, and if you feel the description suits you.

- send us your application (cv + short description) on [hello@hugething.vc](mailto:hello@hugething.vc) and say Hi! to the new adventure.

### Who are we looking for?

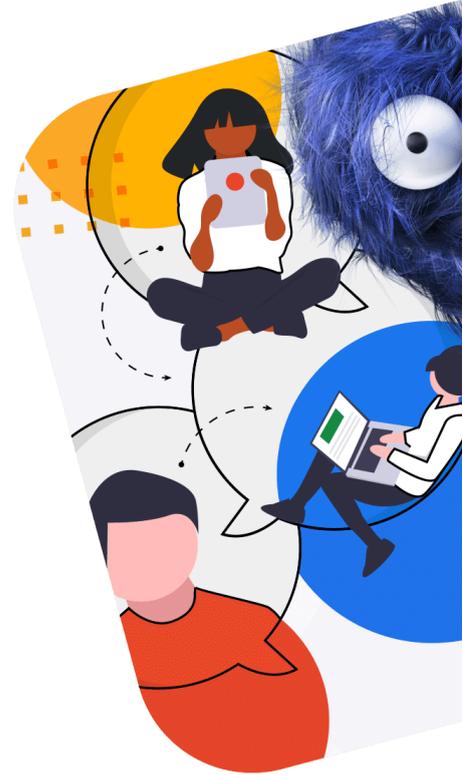

**We are looking for real “doer” personalities** and people connected in the innovation ecosystem who **know how to play service design/design thinking tools. We are looking for a person who likes people and learns how to help the teams create new services.** It would be good if you had experience in leading innovation processes in public or private organizations. We need you to know English to be able to communicate freely (spoken and written). Work location: Poznań or Warsaw.

### Skills needed - short sum-up:

- experience in creating and leading workshops based on Design Thinking tools
- knowing how innovation processes in organizations work
- fluent English (spoken and written)
- self-reliance
- networking skills
- the curiosity and mind of the researcher

### Your potential duties & responsibilities

**The Project Manager will lead the Acceleration Programs**, including educational and training content development and delivery. You will support the overall innovation and

startup ecosystem in our network and act as the prime contact with startups, mentors, investors, and stakeholders—supporting other innovation initiatives and projects.

## Want more? Here you can find a short sneak peek of d&r:

### A. Facilitating the process of creating and implementing innovative solutions.

- Creating and leading the workshops dedicated to projects led by HT.
- Taking part in innovation culture research.
- Facilitating the innovation processes for HT partners.
- Creating innovation processes for global companies.
- Taking part in other projects based on innovation processes bias realized by HT.

### B. Startups support

- Helping startups from Huge Thing programs and SpeedUp Group's portfolio in creating the best solutions and services.
- Supporting startups on their way to cooperation with mature businesses and government.

### C. Networking

- Building alliances with innovation agents in the ecosystem.
- Representing HT at conferences and external events.

## What we can offer you

- Opportunity to develop existing competencies and acquire new skills within the company and within the **SpeedUp Group**.
- Excellent team and friendly atmosphere at work.
- Flexible working system.
- Opportunity to work with international brands.
- Independence and responsibility for entrusted tasks.
- The form of employment that suits you best.

## About Huge Thing

Huge Thing started in 2012 as one of the first operators of acceleration programs in Poland. Till today we have realized 9. editions of programs for startups. In 2018 we also started to support companies at every stage of acquiring innovation – from setting the framework and strategies of innovation teams through support in implementing programs and initiatives to acquire and create innovations that meet their needs.

**Huge Thing helps corporations to discover their inner face of innovation.** We are also a part of SpeedUp Group - a group of leading venture capital funds operating in CEE. More about us you can find on [hugething.vc](http://hugething.vc)
